Quality for life

Back on his feet.

And moving at the speed of life. With the C-Brace.

Until now, people with paresis of the quadriceps, post-polio syndrome, and some types of incomplete spinal cord injury had limited choices. Now Ottobock opens a whole new world of mobility with the remarkable Orthotronic Mobility System: C-Brace®.

Imagine fluid, natural, efficient movement with support on uneven terrain, on inclines, and going down stairs. In daily life, it means a walk in the park can be just that.

Contact your Ottobock sales representative at 800 328 4058.
